

ISDS 3107
Assignment 7: (Mostly) Static Pages
Due: 14 April 2022

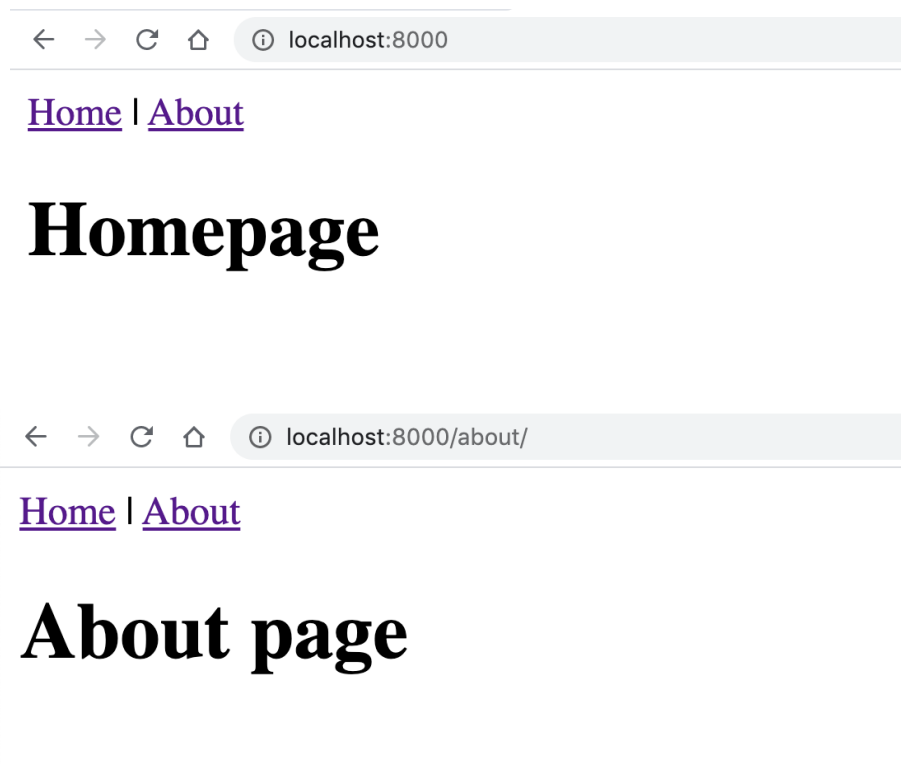

Description

The goal of this assignment is to demonstrate the ability to create a Django app utilizing HTML templates and deploy it to Heroku.

Examples of these types of operations will be discussed in the book and lectures.

Requirements

Create an app similar to the Static Pages app introduced in the Django Book (ch. 3 & 5) and deploy it to Heroku.

Grading

- Utilize Template Extensions
 - create base.html – 20 pts
 - create home.html that extends base.html – 10 pts
 - add your name to the home page – 10 pts
 - create about.html that extends base.html – 10 pts
 - add an interesting fact about you to the about page – 10 pts
- Create a git repository for the project and push the code to GitHub – 20 pts
 - Submit link of your GitHub repository via Moodle
- Working App Deploy to Heroku – 20 pts
 - Submit link of your deployed (and working) Heroku app via Moodle
